Art Unit: 3724

1. Claims 1-41 are rejected under 35 U.S.C. 112, second paragraph for undue multiplicity.

As originally filed, this case has 41 claims, with 4 independent claims. All of these claims are directed to a single, simple device, namely the shield.

The Examiner acknowledges that Applicant needs and deserves to be able to draft claims of varying scope to afford him the best protection. However, 41 claims all directed to one simple device, each claim with it's own shades of meaning and possible interpretations, creates too much chance for confusion and error.

The office and the Examiner very much want to do a good job on this case, but if 41 claims are examined, it is deemed that the Examiner and later, the Public, will have a high chance of confusion and error.

Furthermore, the fairly simple concept of the shield does not warrant 41 claims. Such a concept could be covered with significantly less claims. The Examiner deems that 3 independent claims, and up to 12 non-multiply dependent claims would more than suffice to cover this concept.

In response hereto, Applicant should elect up to 3 independent claims and up to 12 dependent claims for further prosecutions.

See MPEP 2173.05(n). It is noted that Applicant need not cancel the nonelected claims at this time. Art Unit: 3724

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ken Peterson at 517-272-4512, on Monday-Thursday, 7AM-5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan Shoap, can be reached at 571-272-4514. In lieu of mailing, it is encouraged that papers be faxed to 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. For more information about the PAIR system, see http://pair-direct.uspto.gov or call the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
